## Independent Auditor's Report

### To the Members of Chippewas of Rama First Nation

We have audited the accompanying consolidated financial statements of Chippewas of Rama First Nation, which comprise the consolidated statement of financial position as at March 31, 2014, and the consolidated statements of operations and accumulated surplus, change in net financial assets, and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

### Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of Chippewas of Rama First Nation as at March 31, 2014, and the results of its operations, changes in net financial assets and its cash flows for the year then ended in accordance with Canadian public sector accounting standards.

---

### 1. Summary of Significant Accounting Policies

#### a) Nature of Organization

Chippewas of Rama First Nation (the "First Nation") provides government type services such as education, health and social services, economic development, police, fire, public works, planning, lands and trust, recreation and other general government services.

The First Nation is exempt from income tax.

#### b) Basis of Accounting

These consolidated financial statements have been prepared in accordance with Canadian public sector accounting standards prescribed for governments as recommended by the Public Sector Accounting Board of Chartered Professional Accountants of Canada (CPA Canada).

Inter-organizational balances and transactions are eliminated upon consolidation.

Under the modified equity method of accounting, only the First Nation's investment in the government business enterprise and the enterprise's net income and other changes in equity are recorded. No adjustment is made for accounting policies of the enterprise that are different from those of the First Nation.

Organizations consolidated in the First Nation's financial statements include:

**1. Summary of Significant Accounting Policies (continued)**

**e) Loans Receivable**

Loans receivable are recorded at cost less any amount for valuation allowance. Valuation allowances are made when collection is in doubt as assessed by management. Loans are reviewed on a regular basis by management. Interest income is accrued on loans receivable to the extent it is deemed collectable.

**f) Portfolio Investments**

Portfolio investments are recorded at cost unless there has been a decline in the market value which is other than temporary in nature in which case the investments are written down to market value.

**g) Inventories for Resale**

Inventory for resale is stated at the lower of cost and net realizable value. Cost is generally determined on a first-in, first-out basis.

**h) Tangible Capital Assets**

Tangible capital assets are recorded at cost less accumulated amortization. Cost includes all costs directly attributable to acquisition or construction of the tangible capital asset including transportation costs, installation costs, design and engineering fees, legal fees and site preparation costs. Contributed tangible capital assets are recorded at fair value at the time of the donation, with a corresponding amount recorded as revenue. Amortization is recorded on a straight-line basis over the estimated life of the tangible capital asset commencing once the asset is available for productive use as follows:

Land improvements	10 to 25 years
Buildings and structures	10 to 30 years
Roads and bridges	20 to 50 years
Water and waste water systems	50 years
Automotive	3 to 15 years
Equipment	5 to 15 years
Computer systems	3 years

Tangible capital assets are written down when conditions indicate that they no longer contribute to the First Nation's ability to provide goods and services, or when the value of future economic benefits associated with the tangible capital assets are less than their net book value. The net write-downs are accounted for as expenses in the consolidated statement of operations.

Certain assets which have historical or cultural value, including works of art, historical documents and historical and cultural artifacts, are not recognized as tangible capital assets.

Assets under construction are not amortized until the asset is available to be put into service.

**1. Summary of Significant Accounting Policies (continued)**

**i) Inventories Held for Use**

Inventories of supplies held for consumption are recorded at the lower of cost and replacement cost.

**j) Pension Plan**

The First Nation is an employer member of The Standard Life Assurance Company of Canada, which is a defined contribution pension plan. The Pension Committee, representing plan members and employers, is responsible for overseeing the management of the pension plan, including investment of the assets and administration of the benefits. The First Nation records as pension expense the current service cost.

**k) Loan Guarantees**

Chippewas of Rama First Nation has guaranteed the mortgages of certain band members. When it is determined that a loss is likely, a provision for loss is recorded. The provision is determined using the best estimates available and taking into consideration all known circumstances. A provision for loan losses is reviewed by management on an annual basis.

**l) Revenue Recognition**

Revenues are recognized in the period in which the transactions or events occurred that gave rise to the revenues. All revenues are recorded on an accrual basis.

Government transfers are recognized as revenues when the transfer is authorized and any eligibility criteria are met, except to the extent that transfer stipulations give rise to an obligation that meets the definition of a liability. Transfers are recognized as deferred revenue when transfer stipulations give rise to a liability. Transfer revenue is recognized in the statement of operations as the stipulation liabilities are settled.

Contributions, other than government transfers, are deferred when restrictions are placed on their use by the contributor, and are recognized as revenue when used for the specific purpose.

Revenue related to fees or services received in advance of the fee being earned or the service is performed is deferred and recognized when the fee is earned or service performed.

**17. Solid Waste Closure and Post-Closure Liabilities**

Solid waste closure and post-closure care requirements have been defined in accordance with industry standards and include final covering and landscaping of the landfill, removal of ground water and leachates, and ongoing environmental monitoring, site inspection and maintenance. The present value of the First Nation's estimated future liability for this expense is recognized as the landfill site's capacity is used. The liability and annual expense is calculated based on the ratio of utilization to total capacity of the landfill site and the discounted estimated cash flows associated with closure and post-closure activities. The reported liability as at year end was \$1,157,123 (2013 - \$1,045,562) and reflects a discount rate of 4.2% (2013 - 4.2%). The estimated total expenditures for landfill closure costs are approximately \$530,000 with annual post-closure care costs of approximately \$50,000.

The liability is based on estimates and assumptions related to events extending over the remaining life of the landfill. The landfill was expected to reach its capacity during 2012 however, its useful life has been increased by an estimate of 11 years due to an extension of the berms performed in 2013. The estimated remaining landfill life is 10 years. There are no specific assets designated for these post-closure costs, though management believes that the current accumulated surplus will be sufficiently maintained to meet this liability. The estimated length of time needed for post-closure care is 50 years.

---

**18. Pension Plan**

The First Nation makes contributions to The Standard Life Assurance Company of Canada pension plan. This plan is a defined contribution plan. The First Nation matches employee contributions up to a maximum of 8% of the employees compensation. Employees have the choice of contributing either 5% or 8% of their compensation to the plan. The retirement benefit for each employee is the amount that can be provided at retirement based on the accumulated contributions made on that individual's behalf and investment earnings on those contributions.

During the year, the First Nation contributed \$1,181,080 (2013 - \$1,154,611) to the defined contribution pension plan and is included in employee benefits in the statement of financial activities. There were no significant changes to the plan during the year.
