Paying it forward/What do you do?

Our family lives in an older neighborhood we have 2 next door neighbor's that are seniors and live both alone on either side of our house. When our children were old enough to understand they started to bring little gift's over to wish them a Merry Christmas. Its become a special moment for them to appreciate our older neighbors and bring each other a little joy to those that are alone over the holidays. Now for many years after our neighbor that lives on one side started packing a bag of treats and little dollar store items for the kids to share. She leaves it quietly on our doorstep for the children to discover on Christmas morning. It brings us all such excitement and joy.
