## **Work Family-Christmas Tradition—Paramedic Style!**

Having been with Rama Paramedic Services for over 14 years, I have worked multiple Christmases that I've lost count!

Since 2013, every year that my partner Ryan and I have worked on Christmas Eve or Christmas Day, we have built a gingerbread house! Now... We're Paramedics, not bakers... So we definitely use a DIY kit!

Not only does it bring a little holiday spirit into our station, but it's also a tasty little treat for those late night calls! 3am sugar rush!

This year we will be working night shift on Christmas Eve and Christmas Day, but we've switched things up a little bit... Instead of a traditional gingerbread house, we have both an Oreo House kit AND a Kit Kat Cabin kit! We can't wait to build these festive little creations... And then eat them until our bellies hurt!

Here are some photos from previous years—2013, 2018, 2019.
